Projects in 20 countries

We are specialists in lighting,  
who work with our clients to  
achieve intelligent, innovative  
solutions for their projects.  
We aspire to greatness in  
everything we do.

↖ Leixões Cruise Terminal, Matosinhos, Portugal.

Architecture: Luis Pedro Silva

OSVALDO/MATOS

# We are a company with a human face

It was more than half a century ago when local entrepreneur Osvaldo Matos founded the company.

With an instinct for centring his clients in his work and providing tailored solutions to their challenges, he created a reputation for flexibility, confidence, and dedication that would soon reach far beyond the city of Porto.

↖ Osvaldo de Araújo Guimarães e Matos  
Circa 1960

OSVALDO/MATOS

# from a culture where expertise met the cutting edge.

The ability to customize and make new designs from scratch created an opportunity to cooperate with renowned architects and designers as they developed bright new projects.

Our flexibility captivated some of the greatest minds of the generation.

↳ Architect Eduardo Souto de Moura  
and Nuno Matos

OSVALDO/MATOS

# Today, no project is too big,

We are a leading provider of turnkey solutions for prestigious international projects, allied with some of the most advanced sources of lighting technology research in the world.

We support architects, engineers and lighting designers with next-generation software and project management, and value engineering allows clients to control project budgets without sacrificing expectations.

↳ Braga Stadium, Braga, Portugal.

Architecture: Eduardo Souto de Moura

OSVALDO/MATOS

and no project  
is too far,

With offices and factories on two continents, and projects all over the world, we move products to any part of the globe.

We synergize international management and consulting with local development to ensure the project meets clients' ambitions.

↖ Building on the Water, Jiangsu, China

Architecture: Álvaro Siza

# because of our unique toolbox.

In addition to our own line of products, trusted relationships with world-famous brands lets us source competitively priced products for our clients, and customize them to exactly suit the demands of the project.

Now, we move into the future responsibly, providing tools to design for the longevity and maintenance of human spaces, and to ensure sustainability and energy efficiency.
